NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Last week was one of those weeks when things just didn't seem to go right for us here at the Herald. To start off with, we ran an advertisement for Jack Harughty announcing that he was now associated with Ideal Barber Shop only it came out Imperial. This is where he is now—sorry about that Jack.

Next thing that happened was Mrs. Barrow at City Hall called and informed us that the deadline for filing for the schoolboard election was Wednesday, not Thursday as we carried it. We just got mixed up when we counted back 30 days prior to the election. We had carried it right in an earlier issue but missed it when we wrote the story last week.

It is Thursday mornings like this that makes you just want to go back to bed and try it again later.

In spite of the cold weather we are having this week it is time to get Little League started again. While we realize that many people may disagree with us, we still hope that the business of feeding the winning teams after a game is stopped.

In the first place, we do not go along with the idea that the kids should be rewarded every time they win a game. If they are not going to play to win they don't belong out there anyway. But more important, it has ceased to be taken as a treat but more as something that they expect and demand.

Win or lose, we can see treating the kids once in awhile but it should be because someone wants to and not because it is expected.

Some managers have been lucky and have had enough support from parents to keep the thing from becoming a hardship but some have not been so lucky. We have no idea as to how much money this involves each summer, but considering how hard pressed the Little League association is for funds we feel that the money could be better used for bats and balls.

This bit of information was passed along to us from Chief Wason, who got it from Jerry Pritchard, who got it from the March issue of Popular Mechanics. Because we have not tried it, and do not know enough electronics to know any different we are just passing it along for what it's worth—no guarantees.

It is a method of detecting a tornado up to 20 miles away by the use of your television set. Supposedly, you can set your set up during a weather alert with the following direct ions and spot bad weather.

(1) Turn your TV set to Channel 13.

(2) Darken the screen to the threshold of blackness,

(3) Switch to Channel 2.

If screen is white or turns white after being black, a tornado is 5 to 20 miles away. Horizontal white lines indicate lightning. As the white lines become wide bands and linger, a dangerous storm is in the offing.

The method is called the Weller method after its discoverer, Newton Weller of West Des Moines, Iowa. Weller has discovered that the pulse of a tornado generates an electrical frequency in the 55 megacycle band—the same frequency as Channel 2 on the television set.

If you did not see the movie "Two A Penny" last night, we would urge that you see one of the two showings tonight. We were privileged to see a preview of this film a few weeks ago and can recommend it very highly.

In this day of so many questionable movies, it is good for a change to find one that you can recommend to anyone. And this is one that the whole family should see—particularly teenagers and their parents. It has a strong message to tell and the acting is superb.

Services were held at 2 p.m. Monday at Elliott's Funeral Home Chapel in Abilene. Rev. William Eastburn, pastor of St. Mark's Episcopal Church of Abilene and Dr. Alfred Freeman, pastor of St. Paul Methodist Church of Houston officiated.

Member of a prominent West Texas family, Mrs. Morton was born Jan. 13, 1880, at Marlin, moving to Abilene as a small child with her parents, the late Mr. and Mrs. Sam Young, in 1881, the year the Texas and Pacific Railroad was built through this region. She decided to restock her third of her grandfather's old T-Diamond Ranch in Fisher Jones and Stonewall counties, using his brand, the Y-6.

In 1941 Mrs. Morton moved to the Y-6 Ranch, making her home in the original T-Diamond house, which she remodeled many times. For many years she lived on the ranch and specialized in breeding commercial and registered Herefords.

Her Abilene home was at 770 Rivercrest, home of her late daughter, Mary Trammell.

"BE CAREFUL" -- That was the advice Watts Fletcher gave his wife just shortly before he became involved in the wreck scene above. Thursday morning about 8 a. m. he was on his way to pay a bill at the hospital when a series of catastrophes ended with his car on the front porch of the R. E. Gilreath home (upper photo). At the intersection of Northwest Second and Northwest Avenue E, the Fletcher car collided with Ruby Robertson's 1969 Camaro (lower photo). At impact, the Fletcher car was thrown into reverse and the accelerator stuck. Kenneth Hobbs, investigating officer, said the car traveled at a high rate of speed for some 400 feet, cut across the corner of the Avant's yard, missed a large tree and slammed into the porch and front bedroom of the house. In lower left photo, the Fletcher car is being removed, showing some \$2,000 damage to the residence. No one was injured. The Gilreath's were in the back of the house. Rita Wells was a passenger in the Robertson car.

FROM THE FILES . . .

FORTY-FIVE YEARS AGO
(February 29, 1924)

There is an effort to re-organize the Hamlin Band. Last Monday night, Band Master Cullum of Stamford accompanied by Mr. Masterson and Waggoner were in Hamlin and met with about twenty-five of the boys. There was much enthusiasm. All boys and parties interested in the Hamlin Band come out to the City Hall. Be there if you are interested in the Hamlin Band.

Wednesday night while everybody slept the local American Express was busy moving to their new place of business just west of the First National Bank.

Wise Chapel Items: The school inspector visited our school this week and stated that this is the best rural school he had visited and the only one that deserved the full limit of the apportionment of State Aid. We certainly do appreciate the compliment, the aid, and our teachers.

Boyd Chapel News: Oh! but did everybody see Neinda's excuse for us defeating them? Wasn't it great they said "Their best player was absent." Well, he must have been a sure enough good player to have made 20 scores, when all the rest only made 11—funny isn't it? You tell 'em we're going to see that game played at the Tract Meet, for they will have to play a FAIR game there.

TWENTY YEARS AGO
(March 4, 1949)

"Whatsoever Things"

By DONALD E. WILDMON

(For a copy of Mr. Wildmon's new book THOUGHTS WORTH THINKING send \$2.95 to Five Star Publishers, Box 1368, Tupelo, Miss. 38801)

A terrible thing happened the other day. My friend told me about it. It happened at a church. I want to reword his story a little and pass it along.

It seems that a church was in the process of building a new building. The contractor had finished with most of the building and was getting ready to put the carpet down in the sanctuary. To keep it in round figures, about a thousand yards of carpet had been ordered. Stopping work for the weekend, the contractor locked the doors. There was a time when all church doors were open. Now, many have to be closed and locked.

When work began again on the building the following Monday, the men discovered that something awful had happened during the weekend. Someone had broken the lock on the door, broken into the church and stolen about 1/10 of the carpet.

Word got out around town. You know how fast bad news travels. It made a perfect item to gossip about. The church had had some of their carpet stolen from their new church! And, you know, when someone steals something from the church it always makes the news. (Or, nearly always, as we shall see.)

Well, sir, they got to talking about it around the little town. You could hear people discussing it everywhere they went. Some of the words they used for those who stole from the church weren't exactly kind, either. My friend told me later that he was in

one place where they were discussing the theft. "It took a pretty sorry person to do something like that," one remarked. Another said something like this: "A person would really have to be low-down to steal from the church."

My friend said he got to thinking about it. He said he was in agreement that it would take someone kinda cheap to steal from the church. He said of all the places that someone should steal from, the church should be the last.

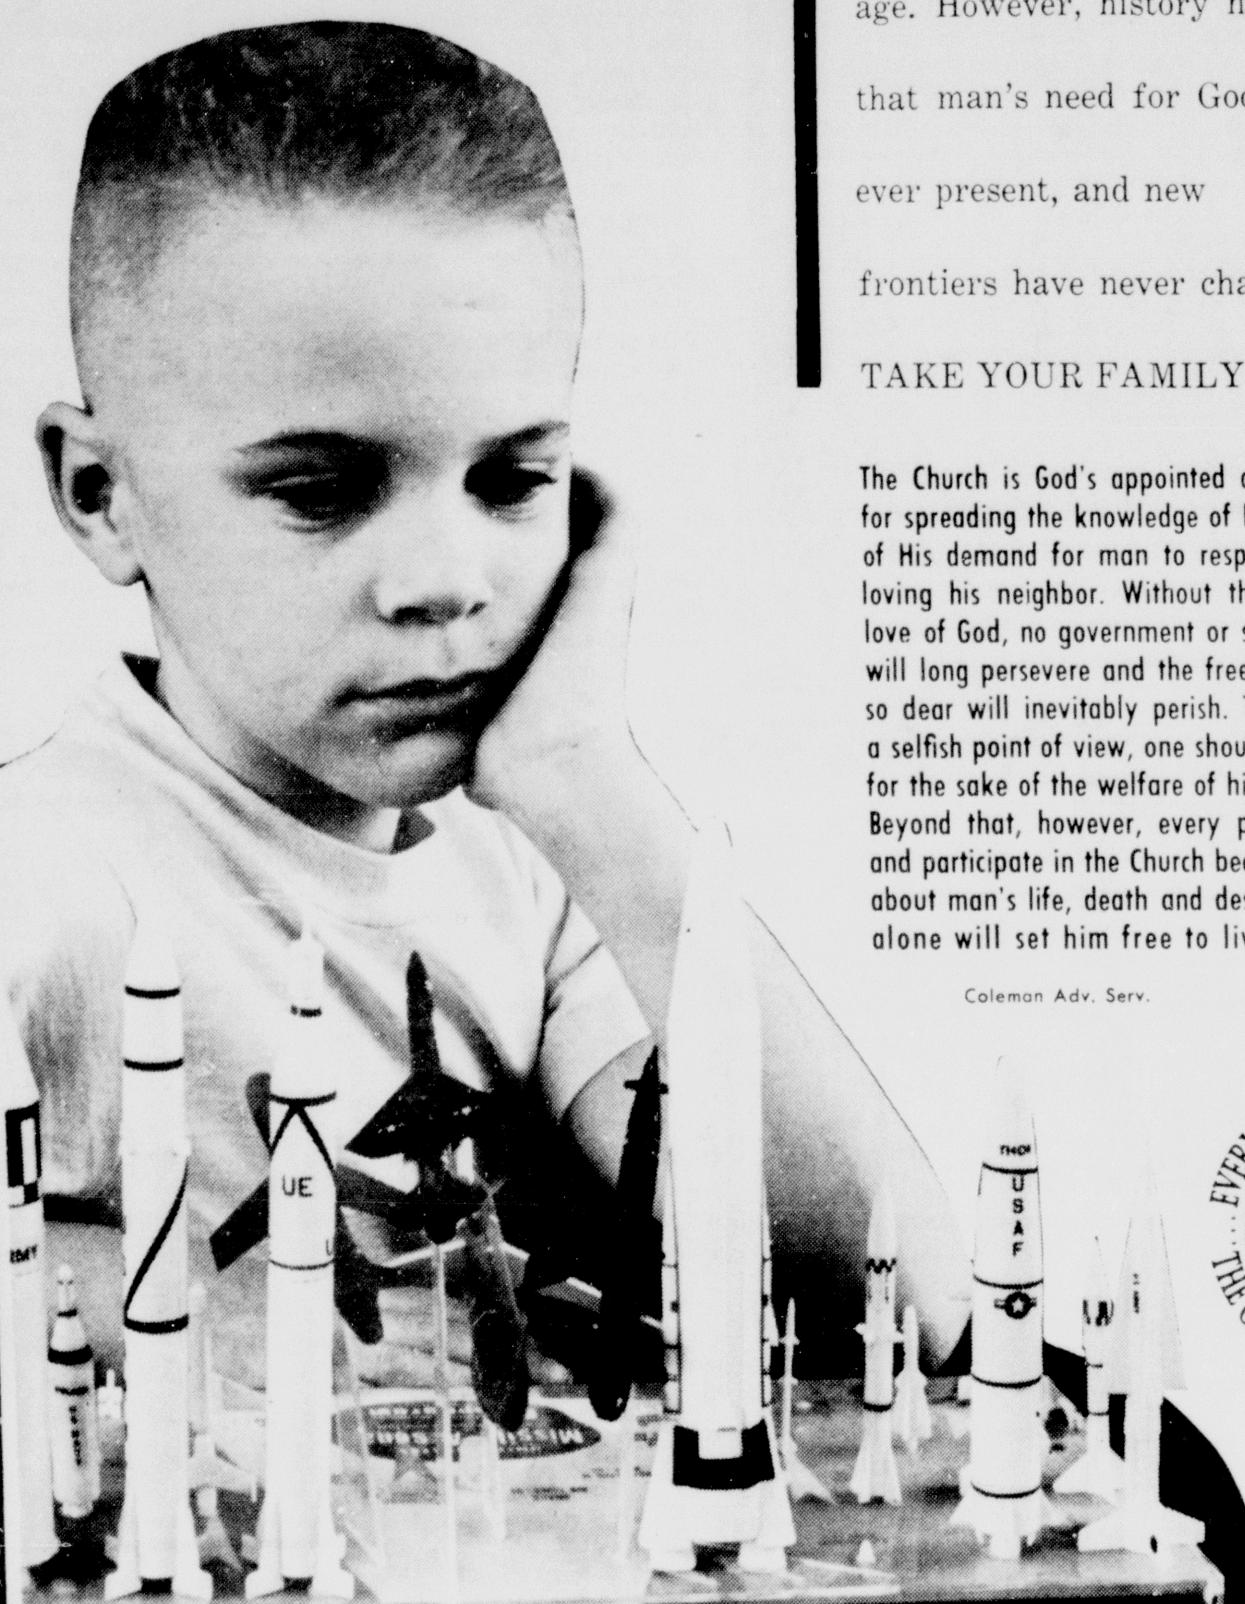

You know, I'm kinda in agreement with those folks about that. I think it would take a pretty low type of person to steal something from the church. The church is the institution that stands for good in every community. It is the place where people go to worship. It is where the good in people is nurtured and polished. Yet, so many of our churches have to close and lock the doors in our world today. People steal from them. They take what belongs to the church.

My friend thought about it for a little. Then he asked the group why they were all excited. They look at him kinda puzzled. "It happens every Sunday when the offering plate is passed," he said. "That tenth of carpet only represents the tenth of our income."

For some reason, someone changed the subject. I guess it seems easier to ignore the truth than to face it.—

We are preparing a completely new way of life for our children. Every day we hear talk of rockets and missiles. This is truly the space age. However, history has taught us that man's need for God is ever present, and new frontiers have never changed this.

TAKE YOUR FAMILY TO CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Neinda Philosopher Comes Out, More or Less, Against So Much Television-Watching By Kids

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One doesn't seem bothered by a problem that bothers some people.

Dear editor:

I don't know how he arrived at his figures unless maybe he clocked his own children but a child expert has reported in a newspaper I read a few weeks ago while waiting for Gunsmoke to come on that the average child in America, by the time he reaches 16, has spent 17,472 hours watching television and he wants something done about it.

I have struggled with this problem, while my tractor stood idle, while I was hunting for a newspaper to read, during commercials and once even into part of Gunsmoke itself before I realized what I was doing and came to at the clink of Festus' spurs on the board walk outside the Long Branch, but I can't think of a thing anybody can do about it, or even possibly why he should.

What I mean is, I suppose

Rotary Program

He explained the ROTC program quoting the advantages to the student and the business world.

RECEIVES GAVER -- The Chairman's Gavel, traditional symbol of authority in the Texas House of Representatives, is presented by Speaker Gus F. Mutscher (right) to Representative Grant Jones of Abilene (left). Rep. Jones is Chairman of the Committee on Claims, which passes on the validity of all claims for money that anyone has against the State which may be filed with the Legislature.

AUSTIN, — Thwarted in one effort to keep down the size of the 1970-71 tax bill by school fund diversion, Gov. Preston Smith took a new approach.

He called on Atty. Gen. Crawford Martin to rush an opinion as to whether income from state-owned submerged lands (bays, river banks etc.) can be used for current school spending.

Martin earlier held unconstitutional the governor's plan to get \$71.6 million in state land revenue bound for the sacrosanct permanent school fund for educational financing during the next two years. Only investment income from the permanent fund can now be spent.

Smith accepted Martin's original opinion, but noted that revenue from submerged lands was not dedicated to the school fund by constitution but by statute in 1939 and 1941. So, if the Legislature can dedicate money from those oil-rich lands, Smith feels it can "undedicate" as well.

"If 72 and a half per cent of the royalties involved were utilized, it would mean approximately \$52 million which the taxpayers would not have to produce to meet anticipated revenues needed to finance state government during the coming two years," Smith maintained.

He asked Martin for an early ruling in preparation for a supplemental message the governor will deliver to the Legislature, in which he will spell out alternative sources for the \$71.6 million item invalidate by the attorney general's March 3 opinion.

Smith first said he has two alternatives: budget-cutting or a reinforced revenue plan. He decided he didn't have much fat left to trim in his budget and settled on alternative money raisers.

LEGISLATURE ACTS —

Legislature finally reached its full complement, with the election of Rep. John H. Poerner of Hondo, a Republican, to fill the vacancy created by the death of Rep. D. C. Howard of Uvalde. And the lawmaking process continues.

Legislators have completed action on the workers' compensation reform bill which raises benefits to injured workers from \$35 a week maximum to \$49.

In their liveliest action, both houses voted out a bill to provide maximum fines of \$200 and jail sentences up to six months for disruptive activities on school and college campuses. Bill went to conference committee for adjustment.

**California Creek SWCD Enters National Contest**

Stamford — The California Creek Soil and Water Conservation District has entered the 23rd annual Good-year competition to select the nation's top 53 conservation districts, according to H. Birger Haterius of Avoca, district chairman.

Activities of the district will be weighed against the performance of other districts in the state in determining the outstanding district in the annual event sponsored by the Goodyear Tire and Rubber Company of Akron, Ohio.

Key agricultural leaders will serve as judges and will select the state winner. Soil Conservation efforts from

Sharp, in Abilene for several days.

A covered dish meal and a fellowship was held in the Methodist Church Monday night and Lt. Col. Hal Tindal was the speaker. Every one enjoyed a good time.

Mr. and Mrs. Ross Douglass enjoyed a visit from his mother, Floy Douglass of Buchanan Dam this past week. Then on Sunday, Mr. and Mrs. Kenneth Douglass and family of Abilene, Mr. and Mrs. Don Wright and daughter of Roby spent the day. During the day Sunday the other son, Gary, called from El Campo and talked to the family. Seems Gary and Paula are homesick. Oh, Mrs. J. P. Maberry visited in the Douglass home on Monday morning!

January 1, 1969 through Dec. 31, 1969 will be considered.

Grand award for the 53 districts selected nationally will be an expense-paid, work-study trip to Arizona in Dec. 1970, for one member of the district's governing body and the outstanding farmer-cooperator in each winning district. The 106 men selected will be guests at Goodyear Farms, a 14,000-acre general farm operation near Phoenix.

This is the second year for the California Creek district to take part in the competition. District supervisors are M. E. Overton, Haskell, Vice-Chairman; John R. "Sonny" Brown, Jr. Anson, Secretary-Treasurer; Elmer H. Boedecker, Sagerton, Member; J. Olin Amerson, Hamlin, Member, and H. Birger Haterius, Avoca, Chairman.

Mr. and Mrs. Danny Stewart and Reed of Sterling City were visitors in the home of Mr. and Mrs. Roger Moore and Todd over the weekend.
